Re: Fifth Price increase announcement

Based on the historic CRU levels, which have increase 220% since July 2020, steel mills announced price increases of raw material, which has impacted domestic and import pricing on all incoming raw material. Coupled with the lack of availability, it has driven up costs over the past few months and we regretfully must announce a 8-18% price increase on all Strut Metal Framing Channels and Accessories, effective **May 3, 2021**.

Additionally, Haydon reserves the right to modify the effective date of price increases and can limit the number of orders accepted based on historical purchases. Therefore, will not accept any order to ship beyond the submitted date of price increase.

We at Haydon Corporation would like to take this time to thank all our valued customers for your understanding in this matter and look forward to continuing the mutually rewarding relationship between our companies. During this time, we hope that you, your family, friends, and co-workers have been safe throughout this unprecedented pandemic and difficult times.

Should you have any questions regarding this pricing increase notice or shall you need copies of our COVID-19 policies, please do not hesitate to call your local Sales Rep, National Sales Manager, or myself anytime.

Thank you for your valued partnership, understanding and cooperation.

Sincerely,

Demetrius Pellicier
Vice President Sales & Marketing
Haydon Corporation
